Just what Azazel's been telling me Trending on the News:

[https://www.nytimes.com/2018/10/29/tech ... 81030&te=1](https://www.nytimes.com/2018/10/29/tech...81030&te=1)

"The aftermath of hatred.

The man charged with killing 11 congregants at an American synagogue posted about his hatred of Jews on social media. And in the wake of the killings, our reporters found a flood of new anti-Semitic posts on Instagram.

It's the latest evidence that social network companies never quite understood the negative consequences of their influence nor what to do about it — and that they cannot put the genie back in the bottle."

Also, with the aftermath and the whining, now most people should know where the immigration problems are coming from, they've admitted:

HIAS (founded as the Hebrew Immigrant Aid Society)

However, since 1975, and even more so since 2000, HIAS as a matter of policy has directed its resources to assist refugees and immigrants of all backgrounds, ethnicities, and religions. It has helped many such refugees and immigrants to reunite with their families, and to resettle in the United States. The very large majority of such refugees are currently non-Jewish.

HIAS has offices in the United States and across Latin America, Europe, Africa, and the Middle East. Since its inception, HIAS has helped resettle more than 4.5 million people.

It's glaringly obvious the Jews are using mass immigration to carry out the genocide of the White Race and culture, along with the Jewish programs of pedophilia and other depravities against children.

Quote from The White House newsletter:

"The so-called migrant caravan that's slowly making its way to the U.S. from Central America is many things to many people. But one thing seems pretty certain: it's not about seeking 'asylum,' or 'refugee status.' It's about getting to the United States at all costs," the Investor's Business Daily editorial board writes. "It's time we take our border seriously, or we'll end up like those countries in Europe and the Mideast who find their nations no longer governable."

REPEAT:

"or we'll end up like those countries in Europe and the Mideast who find their nations no longer governable."

This is not to be taken lightly. As I've already mentioned in another post here. Once these criminality insane Muslims have control of your government (which they are relentlessly working towards), it's all over. And for talk the talk imbeciles who claim they will revolt. There won't be nearly enough of you left.

Our Final RTR is taking them down and exposing them.
